AUTOMOTIVE AFTERSALES

...Keeping you up to SPEED...

Randstad is an independent family owned and run company. At Randstad we are passionate about quality, and back-up our extensive product lines with a traditional personal touch, which in today's business world is often forgotten.

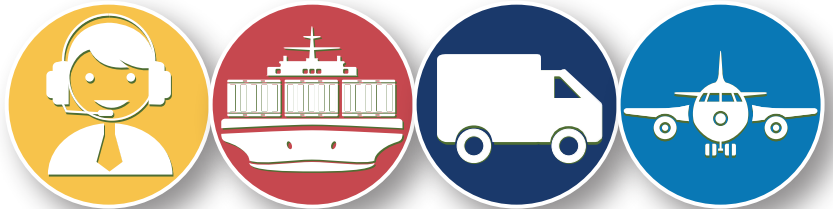

*By choosing Randstad as your supplier you are guaranteed quality products at competitive prices, quality service as standard, friendly, knowledgeable and personal contact backed up by over 45 years technical expertise. We stock an extensive range of products and promise next working day delivery to the UK mainland on orders placed before 4pm.**

*If you have any queries about any of the products in this catalogue, or want to enquire about any product not featured, for up to the minute prices, special offers, specific quotations and of course to place an order please call our customer service team on **01670 735575**.*

*We aim to provide the best value for money available in the UK aftermarket so we offer a **BEST PRICE GUARANTEE** on a wide selection of products in this catalogue. Whenever you see this symbol please speak to us if you want us to beat your current suppliers price.*

**Highlands and Islands excluded.*

Why the North East?

You might wonder why we chose to locate our business in Cramlington. Why? Because our location offers excellent logistical links. We are perfectly located near Blyth and Tyne international ports, with direct global freight links. We're also close to the A1 for transport by road, and just a few minutes from Newcastle International Airport.

CLASSIC™

Classic Bulbs

With most road traffic accidents happening at night or in poor visibility, and with more night time journeys being made, high performance headlights are increasingly important to road safety. Good lighting is an excellent way to prevent accidents both through increased visibility, and reduced driver fatigue.

PHILIPS

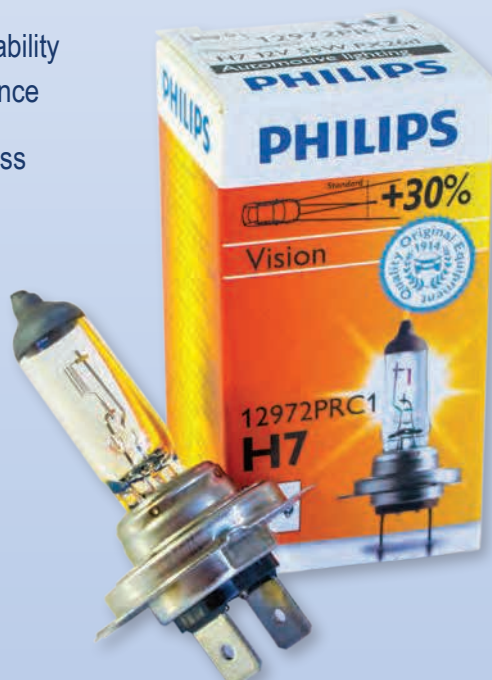

Philips Lighting

The **Philips Premium** range offers an entry point into the world of Philips Automotive Lighting. These lights feature the same high "OEM Quality" as the lights they provide to automakers around the world. Integrating high quality into competitively priced bulbs, the Premium range offers excellent value for all of our customers.

Philips Premium halogen bulbs use **UV Quartz Glass** which provides more light on the road as well as the highest level of resistance to vibrations, extremes of temperature and risks of explosion. Philips also have a **ZERO** manufacturing defect quality control at their production facility.

The Philips Premium range of Halogen Bulbs

- Up to 30% more light on the road
- Better visibility at night and in poor weather
- Top class reliability and performance
- UV quartz glass
- E1 approved

Bulbs

Your Own Branded Bulbs

We can supply and create your own branded bulbs

With over 40 years of supply to the European automotive aftermarket we have become well known as **THE** supplier for certain products where the objective is Quality Products at Competitive Prices. For this reason, and because we have over many years developed a superb network of suppliers, we are 1st port of call for many who want to have an own label presence but do not wish to have to import or work directly with product manufacturers. We can work with your designers or you can work with our in house design team to produce a practical, eye catching own label range of autobulbs. There are of course certain quantity requirements for us to be able to have own label products manufactured and supplied, but these quantities may be lower than you thought possible. So if own label is of interest do talk to your usual contact in our sales department for further information.

Note; own label applies to Wiperblades too.

Free Next Day Delivery

*We stock an extensive range of products and promise next working day delivery to the UK mainland on orders placed before 4pm.**

*If you have any queries about any of the products in this catalogue, or want to enquire about any product not featured, for up to the minute prices, special offers, specific quotations and of course to place an order please call our customer service team on **01670 735575**.*

**Highlands and Islands excluded.*

Norvac Wipers & Stands

Classic Pro Wall Mounted Wiper Blade Stand

A great addition for any workshop, with 9 pegs and a header card this wall mounted stand not only looks good but helps keep stock clean, well arranged, easy to stock control and close at hand for workshop use. This comes supplied with a fitting kit and can be supplied empty or provided free of charge with a starter range of product – just discuss with your usual contact.

Order Code: WBRCK1EMP

Norvac Floor Standing Wiper Blade Stand

An excellent quality, well designed, floor standing rack with 24 pegs to provide a great way to keep stock organised either within the stores department or on the workshop floor.

Talk to your usual sales contact about both supply of the stand and our range of Norvac wiperblades. Once filled this stand and supply will provide a major percentage of all the blades your workshop will require on a daily basis.

Order Code: WBRCK2EMP

Wiper Systems

Norvac OEM Flat Fit Wiper Blades Boxed

Just 5 adaptors enable this range to fit 99% of applicable UK vehicles. Graphite coated for extended life and smoother screen wipe. Individually boxed.

Norvac Wipers

Norvac is a Randstad owned brand of blade, manufactured to the highest standards by one of the largest manufacturers of wiper-blades in the world. Their range includes many well-known brands as well as Vehicle Manufacturers. This range is also supplied across Europe under various Own Label brands for other distributors. Norvac is by far the biggest selling range of wipers in the Randstad portfolio reflecting its position as one of the leading brands in the UK aftermarket, we believe based upon value-for-money.

Norvac OEM Flat Fit Multi Clip Wiper Blades Boxed

Flex design, with build in spring technology, adjusts to screen shape throughout blade motion ensuring consistent contact and superb screen clearance. Unique designed connector for simple fit.

HYGIENE, SAFETY AND CONSUMABLE PRODUCTS

Classic Pro Wipers & Stands

Classic Pro Floor Standing Wiper Blade Stand

An excellent quality, well designed, floor standing rack with 24 pegs to provide a great way to keep stock organised either within the stores department or on the workshop floor. Talk to your usual sales contact about both supply of the stand and our range of Classic-Pro wiperblades. Once filled this stand and supply will provide a major percentage of all the blades your workshop will require on a daily basis

Order Code: WBRCK2EMP

Classic Pro Wall Mounted Wiper Blade Stand

A great addition for any workshop, with 9 pegs and a header card this wall mounted stand not only looks good but helps keep stock clean, well arranged and easy to stock control and close at hand for workshop use. This comes supplied with a fitting kit and can be supplied empty or provided free of charge with a starter range of product – just discuss with your usual contact.

Order Code: WBRCK1EMP

Classic Pro Rear Wipers

Classic Pro Rear Wipers

Classic **REAR** wipers are a direct replacement for vehicles that are equipped with Flat wiper blades. The blades are sold as singles thus reducing your stockholding.

Your Own Branded Wipers

We can supply and create your own branded wipers

As with Autobulbs we have been selling wiperblades for over 45 years and have established excellent long term relationships with some of the world's largest wiper-blade manufacturers. These are companies who work directly with Vehicle Manufacturers to help with product design and innovation. Our own volumes, as one of the largest distributors of wiperblades in Europe, enable us to provide high quality aftermarket replacement blades at extremely competitive prices. If you wish to add an own label range of wiperblades into your product portfolio but are not ready to become an importer or simply do not wish to handle the various administrative issues around importing yourself, maybe do not have the space to handle and stock a one-off larger order arriving into your storage facility or take the risk of not finding the right supplier, please talk to us. We currently source and supply several brands within Europe and are happy to assist with own label design or simply work with your own in-house designers. Please not make assumptions about quantity requirements, just tell us what your usage is and we will be able to quickly advise if you may be able to take advantage of this type of unique marketing opportunity.

Please note the above is fictitious brand packaging

DPF Cleaning Service

If you run a garage you will be handling customers who present with Diesel Particulate Filter problems.

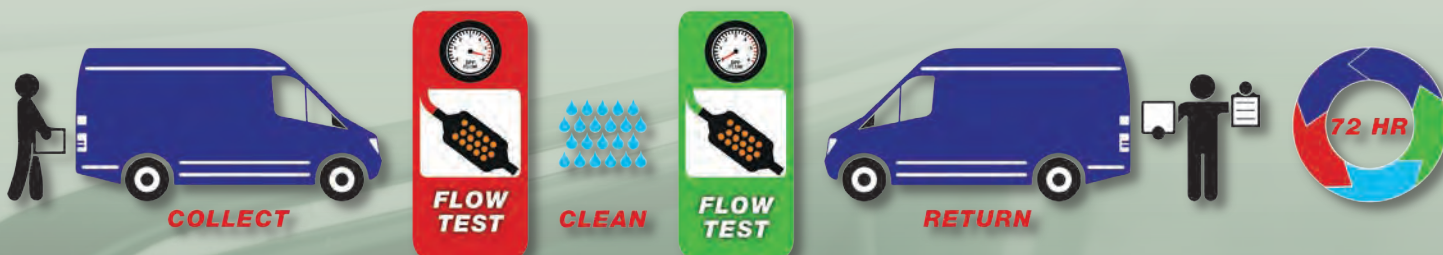

How do you handle DPF problems?

We know that many garages turn to their local TerraClean technician, which is great because TerraClean is a brand we Randstad control in the European market.

Whatever your options - no solution that cleans the unit on the vehicle can remove every contaminant.

So why not try Total DPF Solutions. We provide a collect & clean & return service which will clean even oil and ash from a DPF.

This growing off-vehicle service is saving motorists and making garages £££s – talk to us any time to learn more about Total DPF Solutions.

Talk to us via the dedicated Total DPF Solutions helpline 01670 706988 or at www.totaldpfsolutions.com

BAILCAST

CV Boots

Our range of CV boot kits offers coverage of most front wheel drive vehicles. Positive fit on all models - No cutting at small end - two year warranty. Call us on **01670 735575** for more details.

OE Spec Universal Boot Kits

Range of 8 universal stretchy CV boots with the look and feel of OE boots.

Contents: 1 boot, 2 stainless steel ties/clamps, 60g grease sachet, instruction sheet. Sold in single units.

Order Codes from: QBC100 - QBC800

Stretch CV Boot Kits

1 2 x CV96 boots simply cut to size, durable neoprene rubber, fits shafts from 19 - 27mm, fits joints 58 - 120mm, also includes 12 x grease and 24 x stainless steel ball lock ties.

Order Code: QBCV96

Dust Covers

Dust Covers a range of 4 different sized MOT approved covers - sizes from B1 (11 x 25mm) to B4 (19 x 40.5mm)

Order Code: QDUST1, 2, 3, & 4

CV Boot Fitting

If you have ever tried to replace the **CV boots** on a car, you will appreciate just how difficult it is to actually get the boot onto the drive shaft. Although we can't do anything about the stripping down of the wheel and hub, we can make life easier when putting the boot on itself. This ingenious tool, operated by air, opens the flexible boot effortlessly and evenly allowing simple insertion onto the shaft, totally eliminating the need for lubrication and the struggling involved with the old fashioned method.

Order Code:
QBG110

- **Air powered** – Reducing fitting time by up to 90%
- **No additional lubricants needed** – Due to its unique operation the boots need no additional lubricant to allow fitting to the vehicle.
- **Made from glassfilled nylon**
Maintenance free and works on compressed air (8 Bar max).
- **The DURAGUN is suitable for all flexible CV boots** - with a diameter of 15 - 115mm.
- **Simple open/close push button** - For one handed operation and controlled opening. Easy to use.
- **No need for large air supply** – Operates from compressor with only 9 litre receivers.
- **DURAGUN comes completely assembled and tested.**
- **Air adaptor included.**
- **Two year warranty** – For extra peace of mind.

Hose Clips

Hi-Grip general purpose worm drive hose clips are widely regarded for their quality, durability and ability to withstand a great deal of abuse. They are manufactured to exceed BS5315, which has the highest requirements of any of the international standards, and tests; sealing ability, clamping force and torque. Also have BSI Kitemark and NATO approval, and exceed all operational requirements of the relevant DIN and SAE standards. These standard Hi-Grip hose clips are made from heavily zinc plated mild steel with additional protection from a passivation layer.

In 2021 we lost our founder,
Anthony John Dowd -
"Tony" to everyone here -
who has been the guiding force
here at Randstad since
the early 1970's.

As we are also we are bringing
to completion development of a
new range of high-quality tools,
it seemed only fitting to create a
brand to continue his legacy.

Universal Digital Pressure Tester

REPLACES DOZENS OF STANDARD DIAGNOSTIC KITS IN JUST ONE SET

This kit can measure Diesel and Petrol compression, Oil pressure, Turbo pressure, Cooling system pressure, AD Blue pressure, Fuel low pressure, Vacuum pressure and Particle filter pressure and as an option, Fuel high pressure.

The Kit Includes:

- Tester
- 7" Colour TFT display with resistive touch panel
- Battery: LiPo 3,7V / 2000mA
- USB smart battery charge with led indicator
- PC connection by USB port
- ABS enclosure with rubber bumper (Hubitools design)
- All screws are mounted on brass inserts
- 1/4 thread brass insert at back to fix suction cup, etc...
- Possible recalibration
- User-friendly touchscreen
- Sensor 0 to 300Bars
- Sensor 1 > 3Bars
- Universal Diesel Compression Adaptor
- Universal Petrol Compression Adaptor
- Eight specific professional quick coupling adaptors
- Vacuum adaptors

Order Code: AJDHU35025

Video available when you see this symbol

Common Rail Caps Set

Used in association with AJDHU35026, this set will allow closure of the injector fuel inlet directly on the common rail. The purpose of this operation is to identify if an injector is leaking or not. Works for 3, 4, 5 and 6 cylinders engines. Kit includes 6x M12x150 plugs and 6x M14x150 plugs.

Order Code: AJDHU35030

90° Common Rail Adapters (6pcs)

IDEAL FOR CONNECTING IN TIGHT AREA

- This set, in association with the HU35026 will enable testing of the diesel high pressure of most popular cars in the market. (Delphi, Siemens, Bosch and Denso pumps)
- One end of the adapters always has a M12x150 thread to fit our hoses. The other ends are : AJDHU35028
- M12x125 (2x)
- M14x150 (2x)
- M14x100 (1x)
- M16x100 (1x)

Order Code: AJDHU35028

Common Rail Dummy Regulator Set

This set, used in association with AJDHU35026, will enable bypass of the pump's regulator and measure the pressure, to diagnose any regulator or pump issue. After observing the weak pump pressure : Simply remove the regulator and choose the right dummy plug to bypass and seal the port. If the pressure comes back to normal, the regulator causes the loss of pressure. If the pressure stays too low, the pump is defective. This test is recommended by manufacturers of high pressure pumps. Kit includes 8 different dummy, to seal any regulator ports

Order Code: AJDHU35031

Petrol High Pressure Adapters (5 PCS)

- This Kit allows, using the 0-300bars sensor included in the AJDHU35025, testing the pressure of most high pressure petrol engines (FSI, TFSI, TCe, T-Jet, Etc.) Both using the sensor location or the dedicated plug location
- Kit includes the following adapters :
- HP1 = M12x150
- HP2 = M12x125
- HP3 = M14x150
- HP4 = M10x100
- HP5 = M8x100

Order Code: AJDHU35029

Diesel High Pressure Kit

Made in Germany, 2000 Bar hoses. Easily & safely tests the diesel common rail pressure. Thanks to this set, the mechanic will be able to safely test the diesel common rail pressure, both in line ("in series with engine running") and for direct pump pressure (Cranking the engine)

Unlike simply having the pressure information with the sensor of the car (this sensor may have an issue), our set provides all the hardware (special sensor, plugs, hoses) to perform a very precise and accurate test in association with our digital tester AJDHU35025 (or AJDHU35020). The hoses included in the set will enable measurement and diagnosis of most usual common rail engines.

Kit includes a 2000bar sensor, a sensor plug for direct pump pressure, 2x M12 x 150 hoses for most common applications and a retrieving reservoir

Universal Cooling System Pressure & Caps Tester

Universal Cooling System Pressure & Caps Tester

Attaches to all Cooling Systems without adaptors

- Check the system - With the inflatable bladder sealing system that attaches to all passenger and light commercial vehicles (universal use, no need of any adaptors)
- Check the caps - With 6 unique double ended adaptors that suit the most common caps
- Locate leaks from: Head gaskets, Radiator and heater cores, Welch plugs and housings, Water pumps and hoses, Nylon & glass, fiber non conductive pump
- Detachable tube
- User-friendly "Bladder -> System valve"
- Coloured moving parts

Order Code: AJDAB70809

Camshaft & Crankshaft Seal Tool Kit (Nylon)

- Constructed from super strong fibre reinforced polymer
- Universal tool suits all vehicles
- 7 installation mandrels suit 21.5mm through 64mm seals
- Removal : compact puller with unique extracting hooks engage seal for quick removal (2 pairs of hooks)
- Installation : interchangeable seal mandrels, use vehicle crank or cam bolt to evenly press seal into position

Order Code: AJDAB70961

Low Profile Tyre Removal Tools

Ideal for low profile and run-flat tyres

- 30° angled handle design and extra long length provide increased leverage
- Super-grip knurled handle for increased grip
- Durable high strength carbon steel construction
- Trapezoidal design to avoid bending

Advantages

- Reduces strain on users hand and wrist

Order Code: AJDSTE99719

Timing Belt Service Kit

- Timing Gear Holder adjusts and locks onto cam gear (from 10 to 15cm) to prevent rotation when removing and installing mounting bolt (made of fibre glass reinforced nylon and heat treated forged steel)
 - Heat treated steel Seal Remove Tool with hooks to be inserted into seal then puller is applied to easily remove old seal
 - Fibre glass reinforced nylon Seal Install Tools that accommodates seal sizes from 1,9 to 6,3cm diameter
- Reminder : Advantages of fibre glass nylon over alloy : Light weight, high strength, won't bend if dropped. The most complete kit on the market : contains all tools required to complete timing belt service including seal replacement

Kit contents:

- Dual Cam Gear Lock (see features above : AJDAB71615)
- Single Cam Gear Lock x 4 (see features above : AJDAB71615)
- Timing Gear Holder
- Oil Seal Remove Tools
- Oil Seal Install Tools

Order Code: AJDAB71620A

Steering Rack End Wrench

- Use on steering racks to service inner tie rod ends
- Use directly on the vehicle
- Diameter 33 to 41mm

Order Code: AJDAB70897

Turbo System Tester

- Delivered with 8 conical caps from 35mm to 90mm
- Caps with rugged surface for a better grip in the tubes
- Includes a gauge with integrated regulator for a better leaks reading
- Allows the technician to pressurize the whole turbo and inlet system in order to detect quickly and accurately potential leaks

Order Code: AJDHU12012

Diesel Priming & Bleeding Kit

- For bleeding or priming diesel systems (with no booster pump)
- For connection in-line with the vehicles low pressure delivery system
- Clear pipes allow any air bubbles in the system to be seen
- Time saver
- Ideal for VW - Mercedes - PSA - Renault - Fiat - Opel - Rover - Ford...
- For higher performance connect a vacuum brake bleeder to the special bleed screw

Automatic Brake Bleeder 12v-6 Bar

Easy, simple and reliable.

- Portable and self-powered
- Compatible with ABS/ESP systems
- 12v powering with reverse polarity warning
- Stainless steel body
- Electrical pump (0 to 6 Bar) with automatic power off valve
- Regulator from 0 to 6Bar
- 5ltr reservoir with visible level and min level indication
- Auto power OFF when min level
- Large reservoir opening for easy cleaning
- 12V power cable with jack (L: 4m)
- Power cable for brake fluid with quick coupling system (L: 4m)
- Delivered with fluid refill reservoir with chain and universal screw-on adaptor (compatible with 85% of vehicles)

Order Code: AJDHU11006

Master Cylinder Adaptor Kit

- Suitable for use with most pressure brake bleeders
- Includes European cap adaptor, multi vehicle caps, BMW/Audi, Nissan, Toyota, Mazda & Honda
- This kit contains master cylinder adaptors and manufacturer specific caps
- Adaptors fit 99% of current master cylinder reservoirs
- Supplied in a custom molded case
- A syringe is included to empty or top off the master cylinder

Order Code: AJDHU11004

50

AJD Tools www.ajdtools.com

Impact Bars 3/8" / 1/2" / 3/4"

- Loosen rusted or frozen bolts with high impact force
- Produces 8 x torque multiplication with each hammer blow
- No compressed air required for operation
- Precision impact
- Bi-directional - use to loosen and tighten fasteners
- Swivel head aids with operation in limited access situations
- Swivel head allows speed brace action to spin fasteners off after initial loosening
- Impact absorbing composite handle
- Use with impact sockets and driver bits

Order Codes: AJDAB70862 - 63 - 68

Power Bar Hand Impact Wrench For Cars (1/2")

- Reduces service time on vehicle with limited crankshaft bolt access
- Ideal for Honda crankshaft bolt removal
- Generates up to 600 ft. lbs. of force which exceeds most 1/2" impact guns
- Bi-directional force loosens or tightens bolts
- Saves repair time – no need to remove parts to access the crankshaft bolt or harmonic balancer pulley
- Use where impact guns won't fit
- Impact force 'shocks' bolts loose
- No compressed air required for operation
- Use with impact sockets

Specifications:

- Length: 550mm
- 1/2" square drive

Order Code: AJDAB70866

Diesel Injector Seal Extractor

- Removal of a diesel injector seal that is completely clogged and stuck in the housing
- Slide hammer 1000 grams to remove the most difficult seals
- Integrated hexagonal socket in the slide hammer to screw the extractor into the seal (left-handed thread)
- Conical remover with double thread entry
- Provided with two removers: One for light vehicles (LV) and the other for light utility vehicles (LUV)
- No risk of parts dropping into the cylinder
- No adjustment
- Very easy to use
- Very quick
- High quality equipment for professional use

Order Code: AJDHU41010

Cleaning Fountain

- The system will increase your working efficiency with its unique design
- Large filter installed
- With power switch
- 460 x 660 x 260 mm
- Voltage : 110V / 220V
- Weight : 5kg
- Capacity : 9L

Order Code: AJDHU51010

Digital Clamp Meter with Integrated Display

- AC/DC Current to 600A (ideal for automotive applications)
- AC/DC Voltage to 600V
- Resistance, temperature
- Continuity beeper and diode test
- Auto Power Off

Order Code: AJDHU9800T

Multimeter Pro for Hybrid Vehicles

- CAT III (1000v) safety rating for hybrid vehicle circuits and all other automotive applications
- Higher amperage test ranges, up to 20 Amps
- RPM measurement for automotive engines with 2 to 10 cylinders using the inductive Pick-up
- Oversized high contrast LCD display with backlight
- 14 Functions including DCV, ACV, DCA, ACA, Resistance, RPM Tach), Frequency, Dwell angle, Duty cycle, Temperature (IR Temperature) (°C/°F), Capacitance, Continuity and Diode Check
- Data Hold, auto Power Off, over-range indication
- Fused current inputs/overload protection on ranges
- Measures milliseconds pulse width to test on-time of fuel injectors, idle air control motors and electronic transmission controls

Order Code: AJDHU31010

TOOLS

Scope +

Scope +

THE ULTIMATE AUTOMOTIVE TESTER

- Solely designed for automotive electrical circuit's trouble shooting!
- Easy and simple to use, no extensive electrical knowledge needed.
- Fully protected. Will not cause damage, even accidentally, using OHM measurement to measure Volts.

Measures:

- Amps draw (Mini, ATC or Maxi) without removing the fuses from the Fuse Box
- Voltage (max. 50VDC)
- Cranking volts with auto HOLD function
- Resistance [Ohms] (from 0.0 Ω up to 1.0 M Ω)
- Frequency with peak to peak volts (up to 20 KHz)
- Duty cycle (%)
- Continuity test + Diode/ LED test

Order Code: AJDHU31025

The Amp Hound

- Designed to drastically reduce the amount of time needed to determine the amount of current in a fused circuit
- Can detect as small as 0.005 AMP
- Ideal to locate parasitic draw
- No need to remove fuse risking a reset of the circuit (GPS code, seat adjustment, system interface sleep mode...)
- Makes it possible to very quickly "sniff out" any currents that are flowing in an entire Fuse Block in only a few seconds

Works on the following fuses :

- Mini (ATM) 5 A, 7,5 A, 10 A, 15A, 20 A, 25 A, 30 A
- Standard (ATC) 5 A, 7,5 A, 10A, 15 A, 20 A, 25 A, 30 A
- Maxi 30 A, 40 A, 50 A

Order Code: AJDHU31019

Sensor Simulator

The ideal tool to simulate and actuate the output signal from automotive sensors: frequency, voltage and test sequences

- It will help in diagnostics when scan tool diagnosis ends. Sensors, injector actuators will inform the scan tools that there is a problem, but Sensor Simulator will allow the technician to know if the faulty operation is a faulty sensor a problem in the car computer, a defect in the wiring...
- The device is specially used for wiring tests. It can simulate the correct signal and compare it to the scan tool
- Allows you to eliminate the need to replace sensors that work perfectly fine (investment quickly pays for itself)
- Simulator functions
 1. Simulated Resistance
 2. Simulated Voltage
 3. Simulated Sine Wave
 4. Simulated Square Wave
 5. Simulated Temperature Coefficient Sensors:
 6. Simulated Throttle & Pedal Sensor sequences
 7. Oxygen Sensor: Testing Mode and Simulated mode
- You can simulate most sensors, injectors or actuator as ABS sensor, lambda sensor, EGR sensor, CKP sensor, knock sensor, map sensor
- To be used in combination with AJDHU31025 Scope +

Order Code: AJDHU31035

Dynamic Battery Tester + Live Monitoring

Ideal For Smart Alternator Test
(Smart Battery Charging System)

4 Modes in 1 Tester :

- Live Monitoring Dynamic Test (0-36v)
- BSM Battery System Management
- Smart Alternator
- Battery test
- Cranking test
- Charging system test

Order Code: AJDHU34045

- Most cars are now equipped with smart charging technology for CO2 Emission reduction. These systems come along with more battery and charging system related problems.
- Customers and technicians are therefore confronted with various warranty issues.
- The AJDHU34045 enables the technician to locate and isolate the real problem, avoiding replacement of working components.
- No more unhappy customers coming back every 6 months with battery warning lights on the dash.

Start/Stop Battery & Electrical System Analyser With Printer

Specially designed for Start/Stop systems.
 Exclusive design by Hubitools.

Most modern cars have Start/Stop technology as standard.

- Two battery technologies : AGM and EFB
 - EFB technology is used on « low efficiency » vehicles that feature Start Stop systems but only have essential basic comfort equipments
 - AGM technology is used on vehicles with extra equipment, such as devices for recovering brake energy
- Hubitools launches its own new generation START/STOP BATTERY & ELECTRICAL SYSTEM ANALYZER that allows testing the following systems that features both AGM and EFM technologies:
 - Fiat - S&S
 - VW - BlueMotion
 - Ford - ASS (AutoStartStop)
 - Mercedes-Benz - BlueEfficiency
 - Opel - ecoFLEX start/stop
 - PSA - e-HDI
 - Renault - Energy
 - Seat - Ecomotive
- Tests 6V-12V batteries and 12V-24V volt charging & starting systems
- Integrated printer
- Digital screen
- Operating range: 40 ~ 2000 CCA
- Tests EFB, VRLA / GEL , AGM Flat Plate, AGM Spiral and Regular Liquid batteries in 2 seconds
- Rating system: SAE (CCA)/ DIN / EN / IEC and JIS
- 7 languages available (EN, DE, FR, NL, SP, PT, IT)

Order Code: AJDHU34012

Diagnostic Test Lead Set

Complete lead kit for Automotive diagnostics.

- Contains almost all connection leads for connecting to sensors, valves, connectors, injectors ...
- All leads are arranged properly in pairs "Male & Female" and by terminal sizes
- Includes ATC adapter Mini and Maxi fuses and ATC Current loop to be used with an Amp Clamp
- Includes Piercing Extra Sharp Probes. This innovative design gives enough retention force to pierce through the wire's insulator
- New variable resistor of with 10K Ω (instead of 5K Ω) dial indicator. Quick and easy way of resistance adjustment without the help of a multi-meter during simulation of resistance related sensing devices
- Airbags simulator : Used to confirm SRS Airbag power input by connecting it first to check for any short circuit before installing new SRS
- Replaceable resistors! 3 of 2 ohms - 2,2 ohms – 2,7ohms
- LED Stroboscope: For checking series of terminals for correct wiring. Also for pulse or signal comparison between injectors. LED turns red for reverse polarity. LED turns green for correct polarity
- Also includes general purpose components; Alligator clips, Banana plug to be used with multimeters, 3 ways extension plugs and detachable test probes
- Ultra thin lead for multipins connector

Order Code: AJDHU31022

Multivoltage Glow Plug Tester

- The Multivoltage Glowplug Tester is the ultimate tool to test the status of diesel glow plugs.
- It will indicate whether there is an open circuit or a short circuit or if the glow plug is in a good state. In this last case, it will also display the actual resistance of the glow plug for the user to evaluate whether or not the glow plug is nearing an out of specification state.
- Universal: works on all type of voltage available on the market
- No glow plug removal needed
- Easy to use
- Results are easy to read
- Incorporated light
- Works on 2 AAA batteries

Order Code: AJDHU35006

Controlled Valve Actuator (EGR)

- Allows the activation and checks proper operation of the 12-V valves: EGR valves - idle fuel governor – motorised throttles solenoid valves – turbo variable pressure probes
- Thanks to its (frequency) output signal, it can also help with valve cleaning using an ultrasonic cleaner
- The kit includes: 12-V valve tester (EGR etc.), battery power connectors, ergonomic cover (rubber boot), interchangeable lead kit, 2.3-mm female terminal kit (black and red)

Order Code: AJDHU35016

Vibroshock

HUBITOLS DESIGN

Vibroshock

- Vibroshock® is the ideal tool to untighten frozen screws, nuts or glow plugs without any damage.
- This kit must be used with an Air-hammer mounted with a pressure regulator (not included)
- PATENT PENDING

Applications:

- Brake screws
- Exhaust screws
- Rounded lugs
- Glow plugs
- Clamp-on injectors

The Kit Includes:

- 1 x Vibro-shaft 3/8" square drive
 - 1 x Articulated wrench
 - Special Impact Sockets with internal edge 8, 9, 10, 11, 12, 13, 14mm
 - The goal of the HU41045 Vibroshock® is to avoid damage due to an excessive torque, or impact. That is what happens often when you use an impact wrench on small diameter screws, bolts, threads.
- The Vibroshock® creates an axial vibration that brakes the welding between the female and male thread applying at the same time a controlled torque to untighten the frozen assembly avoiding the risk of breakage.

Vibroshock VS Impact Wrench

- The Vibroshock® and the impact wrench have totally different ways of functioning:
 - The impact wrench generates rotational impact on the complete mechanical assembly.
- The Vibroshock® generates axial vibration and controlled torque. This difference while dismantling a frozen assembly is very important as from one side the Impact wrench will only create impact on the rotation (with the risk of damage) and from the other side the Vibroshock® will "thanks to the vibration" release the play between the threads enabling the screw to be untightened without risk of damage. Vibration will also definitely help penetrating oil to get in.
- As an example, if you use the impact wrench on an 8mm glow plug, It will take 2sec and the glow plug will be broken in the cylinder head. The Vibroshock® will take it out easily.

Order Code: AJDHU41045

Universal Diesel Glow Plug Puller

- Minimal space needed for use: ideal when glow plug compartment is not easily accessible
- Enables glow plugs broken in the top of the cylinder head to be easily removed without any damage
- Usable in narrow engine bay and engines with glow plugs on the firewall's side
- High quality material for professional use!
- Unique design of Electrode puller to remove as much of the electrode as possible

Easy To Use:

- The kit comprises 1 electrode puller and 1 electrode reinforced drill with 2 guides
- It comprises 2 special centered mills with one mill support that prevent any damage to the head
- A tap and a slide-hammer extractor to pull out the broken glow plug
- 3 refreshing taps: M8, M10x100 & M10x125 with Hex Drive to be used with any ratchet and self centering feature

Glow Plug Repair Kit

This kit is designed to repair the engine glow plug threads M8, M9, M10 x 100 & M10 x 125 quickly, professionally and permanently. It fits modern vehicles with very little space and access to glow plugs.

- Each tool (Reamers & Taps) is self guided!
- No need for glue or thread seal
- Ream ! Tap ! And replace !

The Kit Includes:

- 2 Cylinder head reamers: 9mm and 11mm
- 4 Special taps 4 mounting tools
- 4 Spare Thread repair inserts of each size M8 (short & long) ; M9; M10 x 100; M10 x 12

Universal Glow Plug Tips Puller M8, M9 & M10

- Enables broken glow plug tips stuck in the cylinder head to be easily removed
- The kit comprises 4 easily identifiable guides
- The tap, drill bit and extractor holders are fitted to the body of the original plug and slide in instead for perfect centering
- Self-centering industrial taps
- The size of the drill bits and the shoulder of their holder prevents any risk of drilling or tapping too far into the cylinder head, without prior measurement
- In the event of the tips being flared in the cylinder head, the kit has an ejector that enables the tip to be pushed back into the cylinder before retrieving it with the appropriate magnet included in the kit

Order Code: AJDHU41050

Order Code: AJDHU41051

Order Code: AJDHU41058

Universal Injector Seat Cleaning Set

This set will allow the technician to make a perfect job before placing the new injector! Cleaning the injectors holes after the extraction is extremely important.

The Kit Includes:

- 2 metal brushes Ø 20mm and 25mm for injector hole cleaning
- 2 front brushes for injector seat cleaning
- 1 front brush extension
- 2 seal plugs to close the injector hole while cleaning
- 1 seal plug holder to place and remove the plug
- A sanding kit (paper and paper support)

Order Code: AJDHU41039

Universal Injector Puller

- Single universal kit that enables all types of moderately frozen or caked injectors to be removed without removing the electrical part, even on the latest vehicles.
- For Denso, Siemens Bosch and Delphi common rail or piezo injectors from 1999 to onwards
- Avoids having to remove the electrical part of the injector and thus avoid significant additional costs due to an extremely strong threaded shaft of the same size as the diesel oil inlet coupling to which the extractor is attached
- The kit also includes two couplings (M12 and M14) in the event that the original coupling cannot be removed
- Two ways of extracting the injector: by rotating (handle) by rotating AND axial extraction (mass to inertia) in the most difficult cases

Order Code: AJDHU41055

Lugdriller® - Locking Lug Nut Removal Kit

The Lugdriller® is the Ultimate tool to remove the most difficult locking lug nuts in the quickest and safest way. Over the years the locking lug nuts have been dramatically improved. Their design is more and more complex and the material itself harder and harder.

- Removes the most difficult locking lug nuts
- Professional kit : made of solid material that can work on the hardest lugs
- Very easy and quick to use : 4 to 8 minutes per wheel only!

Order Code: AJDHU42025

Lugdriller

Our DPF cleaners are designed to achieve particle filter cleaning and regeneration, eliminating 100% of the carbon, soot and ashes in record time. They also have functions of automatic adjustment through a simple control screen so that the operation is fully guided and intuitive. The machines include a wide range of accessories to adapt to the filter model of any vehicle.

Oxyhtech DPF Cleaner for Cars

This machine is designed for cleaning particulate filters of any type of car or van in order to achieve the DPF regeneration, eliminating 100% of the soot and ash.

Intuitive operation with automatic adjustment options through a simple control screen.

All kinds of accessories included to run in any car filter model.

N° of cycles:	5 ~ 60 times
In air time:	0 ~ 30 seconds per impulse
Water time:	0 ~ 30 seconds per impulse
Incoming voltage:	10~240V 50 / 60Hz, single-phase
Internal air tank:	20L
Weight and measurements:	100 Kg. 1.000 x 500 x 1.200 (mm) order to achieve the DPF regeneration, eliminating 100% of the soot and ash.

OXYHTECH®

INNOVATIVE TECHNOLOGIES

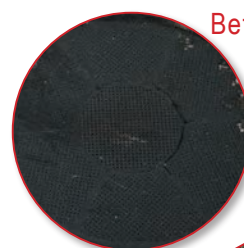

Oxyhtech DPF Cleaner for Trucks

This machine is designed for cleaning particulate filters of any vehicle type (trucks, cars, vans...) in order to achieve the DPF regeneration, eliminating 100% of the soot and ash.

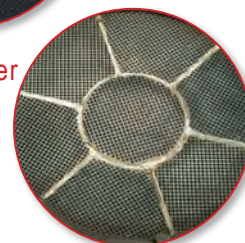

Intuitive operation with automatic adjustment options through a simple control screen.

All kinds of accessories included to run in any vehicle filter model..

N° of cycles:	5 ~ 60 times
In air time:	0 ~ 30 seconds per impulse
Water time:	0 ~ 30 seconds per impulse
Incoming voltage:	10-240V 50 / 60Hz, single-phase
Internal air tank:	40L
Weight and measurements:	140 Kg. 1.000 x 500 x 1.200 (mm)

After

Workshop Tools & Equipment

Here at Randstad we have been working very hard to provide an increased product range to our thousands of UK customers. It has been an exciting project and we have sat down with some great suppliers to select the brands we are distributing. We have set up some great deals with some key automotive industry workshop tool & equipment suppliers and are very proud to have them as partners as we help develop their distribution into the market.

Look at the Brand Logos on this page - these show who we have developed partnerships with. You may now buy **ANYTHING** from their ranges through us, here at Randstad, and take advantage of the incredible prices we have negotiated.

The following pages show a snapshot of popular lines that Randstad customers are already buying from us - but remember **EVERYTHING** in the supplier's range is available.

For more details simply talk to your usual contact here at Randstad, or you may visit the brand website when looking for a product, then come to us for your special price. There are even APPs so you can have supplier ranges at your fingertips all the time.

So whatever you want from these great suppliers - anything from their ranges - talk to us.

NEXT DPF Cleaning Kit

DPF Cleaning Kit

Cleans the Diesel Particulate filter when normal regeneration is no longer possible.
Kit: 4 x Cleaning Fluid + Spraytool.

SEALEY

Sealey Tools

Trusted by professionals, all Sealey products are thoroughly tested by their experienced Engineers for quality, performance and compliance before they are included in the range.

Cutting Disc 115 x 1.2mm 22mm Bore - Pack of 10

- General purpose flat cutting disc recommended for use with Sealey and other manufacturers of grinding and cutting power tools.
- Discs with Model No's ending CT and CET are suitable for cutting stainless steel.
- Supplied in metal tin.

Order Code: QPTC11510CET

Angle Grinder Ø115mm 750W/230V

Slim Body

- Slim composite body ensures a firm grip while performing a range of tasks.
- Features heavy-duty alloy bevel gear head and spindle lock for fast loading/unloading of discs.
- Powerful 750W motor produces 12000rpm (no load speed).
- Supplied with side handle, guard and spanner.
- 2m Power cable with 3-pin plug.
- Cutting disc not included, order Model No. PTC/115C.

Order Code: QSGS115

Grinding Disc Ø115 x 6mm Ø22mm Bore

- Aluminium oxide, depressed centre disc for electric and air tools.
- Suitable for metal grinding applications.

Order Code: QPTC/115G

Mechanic's Tool Kit 100pc

- Comprehensive range of frequently used hand tools for professional mechanics and serious DIY experts.
- 1/4" & 1/2" Sq drive 90-tooth offset comfort grip ratchet wrenches.
- Includes 1/4" and 1/2" Sq drive sockets, spark plug sockets, extension bars, spanners, screwdrivers, ball pein hammer, pliers, bits and accessories.
- Supplied in a tough, durable storage case with metal catches.

Order Code: QAK4700

HSS Split Point Fully Ground Drill Bit Set 19pc Metric

- Fully ground HSS drill bits designed to reduce friction and heat.
- 135° Split point enables bits to bite workpiece to start drilling.
- Efficient clog-free swarf clearance.
- Ideal for use on high carbon steels, copper and plastics.
- Supplied in display case.

Order Code: QAK47191

TRX-Star Socket & Security Socket Bit Set 38pc 1/4", 3/8" & 1/2" Sq Drive

- One of a comprehensive range of Premier Black Hand Tools, suitable for daily professional use.
- Drop-forged Chrome Vanadium steel sockets with S2 steel TRX-Star bits.
- Sockets heat treated and chrome plated for resistance to corrosion.
- Fully polished black chrome finish with machined and lacquered surface.
- Knurled ring to assist gripping with oily fingers.
- Supplied in storage case.

Order Code: QAK6197B

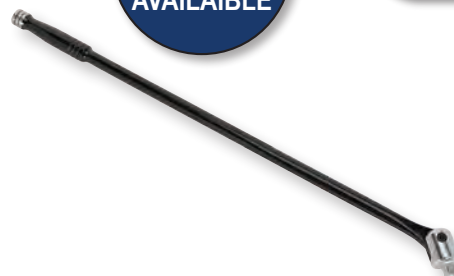

HSS Split Point Fully Ground Drill Bit Set 25pc Metric

- Fully ground HSS drill bits designed to reduce friction and heat.
- 135° Split point enables bits to bite workpiece to start drilling.
- Efficient clog-free swarf clearance.
- Ideal for use on high carbon steels, copper and plastics
- Supplied in display case.

Remote Action Hose Clamp Pliers Interchangeable

- Long reach tool designed for awkwardly positioned tag-type hose clips.
- Flexible cable and compact head help operation in confined spaces.
- Three interchangeable heads.
- One cable for standard hose clamp 670mm long and 3-52mm opening.
- One cable for Clic-R® Type clamp 635mm long and 0-24mm opening.
- One cable for dual-sided clamp for spring type and truck hose clamp, 670mm long and 0-75mm opening.

Order Code: QVS1675

Cordless Polisher Kit Ø71mm 12V - 2 Batteries

Package includes:

- CP1205 - Cordless Polisher Ø71mm 12V Li-ion - Body Only
- CP1200BP - Power Tool Battery 2V 1.5Ah Lithium-ion for CP1200 Series (x2)
- CP1200MC - Battery Charger for 12V Lithium-ion One Battery Range
- CP1200CB - Canvas Tool Storage Bag for CP1200 Series

Order Code: QCP1205KIT

Refractometer Antifreeze/Battery Fluid/ Screenwash/AdBlue®

- Accurately measures the strength of battery fluid, screenwash, antifreeze and AdBlue® by measuring the refractive index of light passing through the mixture.
- Suitable for synthetic antifreeze mixtures including long life OAT (Organic Acid Technology), G13 and aqueous/urea content of AdBlue®.
- Temperature corrected prism ensures accuracy.
- Eyepiece with adjustable focus.
- Simple calibration check using distilled water.
- Supplied with pipette and storage case.

Order Code: QVS0215

Generator 2800W 110/230V 6.5hp

- Heavy-duty industrial frame design provides full protection and aids portability.
- Suitable for running power tools and lighting units etc.
- Fitted with automatic voltage control which protects the unit and provides higher efficiency and a long running time of up to 10 hours on a full tank.
- Fitted with 12V battery charging outlet, 230V and 110V sockets.

Order Code: QGG2800

Compressor 100L Belt Drive 2hp with Cast Cylinders & Wheels

- Fitted with a 2hp motor this unit is ideal for use where a stable 13Amp power supply cannot be guaranteed.
- Pump features full cast cylinders, capped by alloy head for improved heat dissipation and long life.
- Heavy-duty drive guard protects belt and flywheel that is designed to force air over the pump to aid cooling.
- Supplied with full CE certification.

Order Code: QSAC0102B

Trolley Jack 2 tonne Low Entry Rocket Lift

- Twin piston Rocket Lift feature brings saddle to maximum height in just six strokes.
- Universal joint release mechanism allows safer, more controlled lowering.
- Profiled lifting arm gives low clearance height of just 74mm making it suitable for sports and custom cars.
- Supplied in hi-visibility green for easy location and visual safety.
- Hydraulic oil bypass system protects ram from being overextended.

Order Code: Q2001LEHV

E-Clip Retainer Assortment 800pc Imperial

- E-clips assortment.
- Sizes: Imperial.
- Quantity: 800
- Supplied in partitioned box.

Order Code: QAB013ER

Spring Roll Pin Assortment 300pc - Metric

- Spring roll pin assortment.
- Size: Metric.
- Quantity: 300.
- Supplied in partitioned box.

Order Code: QAB007RP

Adhesive Lined Heat Shrink Terminal Assortment 142pc Blue, Red & Yellow

- Transparent heat shrink terminals. Adhesive lined.
- Assortment of ring, butt, male and female spade and push-on terminals.
- Colour-coded blue, red and yellow.
- Supplied in partitioned box.

Order Code: QAB037HT

R-Clip Assortment 150pc

- R-Clips assortment.
- Supplied in partitioned box.

Order Code: QAB002RC

Copper Sealing Washer Assortment 250pc - Metric

- Copper sealing washers assortment.
- Sizes: Metric.
- Quantity: 250.
- Supplied in partitioned box.

Order Code: QAB020CW

Self Drilling Screw Assortment 410pc Hex Head Zinc DIN 7504K

- Self drilling screw assortment.
- Hexagon head.
- DIN 7504K.
- Quantity: 410.
- Supplied in a partitioned box.

Order Code: QAB061SDH

Circlip Assortment 200pc Internal & External Metric

- Assortment of internal and external circlips.
- Sizes: Metric.
- Quantity: 200.
- Supplied in partitioned box.

Order Code: QAB017CC

Self Tapping Screw Assortment 700pc Flanged Head

- Self tapping screw assortment.
- Black flanged.
- BS 4174
- Quantity: 700.
- Supplied in a partitioned box.

Order Code: QAB066STBK

Auto Darkening Welding Helmet Shade 9-13 - Green

- Welding helmet with infinitely adjustable shade control between 9-13.
- Complies with BS EN 379, BS EN 175 and DIN standards.
- True colour technology for improved depth perception, allowing far greater welding precision.
- Fully automatic switching from light to dark on striking arc.
- Shade is selected by a rotary knob on side of helmet.
- Grinding function enables user to grind without removing mask.
- Solar panel power supply - no batteries required.
- Features sensitivity and delay controls for switching light to dark.
- Suitable for MIG, TIG, arc welding and grinding.
- Available in four different colours.

Arc Welder 140A with Accessory Kit

- Manufactured to exacting standards this model meets all relevant CE requirements.
- Fitted with a forced air cooling system, this welder has increased duty cycle and performance.
- Features a single, vented, wrap-around shell fitted to a heavy-duty chassis.
- Screw type, stepless welding control allows fine adjustment of current.
- Fitted with carry handle.
- Supplied with accessory kit including electrode holder, cables, earth clamp and chipping hammer/wire brush.

Order Code: Q140XT

Spot Welder with Digital Timer

- Semi-automatic spot welder.
- Integral electronic control allows operator to select thickness of material while automatically calculating the optimum weld duration.
- Also features pulse mode for use on high stress steels commonly found in modern vehicle construction.
- Composite casing and handle reduce heat transfer for operator comfort.
- Die-cast aluminium head and chassis reduces overall weight for improved handling.
- Fully adjustable jaw pressure from 40kg to 120kg enables close control of weld quality.
- Supplied with 120mm welding arms, electrodes and side handle.

Order Code: QSR123

TIG/MMA Inverter Welder 160Amp 230V

- Fan-cooled DC power supply for TIG and arc welding applications.
- Outer case manufactured from pressed steel with a powder coated finish for extra corrosion resistance.
- Portability makes it ideal for the mobile technician.
- Features quick release switch on the torch for control of gas, saving on consumption.
- Features hot start, anti-stick, forced air cooling, thermal cut-out protection.
- Suitable for arc welding using the lift start method.
- Supplied with MMA/TIG Accessories.

Order Code: QTIG160

LASER®

Laser Tools

Laser Tools is a premier automotive brand that offers a full range of traditional high quality hand tools and also an increasing range of special tools designed to make easy work of difficult and awkward jobs. These tools are the result of feedback from the sharp end of the automotive industry - the actual technicians working on today's motor cars.

THOUSANDS
OF PRODUCTS
AVAILABLE

Jump Starter - Multi-Function

- Capacity 7200mAh will start diesel engines up to 3.5L & petrol engines up to 4.5L.
- Can also be used as a power bank for a laptop/phone; includes 2 USB ports, 2 to 2 USB cable and 2 smart jumper clamps.
- Start current 350A, peak current 700A. Lithium ion polymer battery - charging time approx. 3 hours with charging indicator.
- Short circuit, overcharge, discharge, low voltage, reverse polarity protection.
- Supplied with a storage/carrying case.

Order Code: QL7405

LASER®

Shock Absorber & Macpherson Strut Tool Kit 24pc

Most suspension strut top fixings require the top of the strut to be held while the fixing nut is removed. The design of the tools required for this operation vary considerably from manufacturer to manufacturer and often even across ranges. The 7673 has been specifically designed for repairing and replacing shock absorbers including macpherson strut type assemblies.

Order Code: Q7673

Assorted Self Tapping Black Flanged Screws Box - 700 Pieces

- Flange head, cross-recessed black zinc plate self tappers.
- Type C (AB) case hardened steel.
- BS 4174 CZ.

Order Code: Q35002

Oil Drain Repair Kit 38pc

Repair stripped or worn drain plug holes on oil or transmission pans by enlarging the holes and fitting with new drain plugs and washers.

Order Code: Q7663

Micro 2 Blade Fuse Assorted Box - 60 Pieces

- Micro 2 Blade Fuses.
- Popular sizes of Micro 2 Blade Fuses.
- Contains 10 pieces each: 5amp, 10amp, 15amp, 20amp, 25amp, 30amp.

Matrix® P Grip 303-MAT Gloves

The Matrix P Grip multi-purpose glove offers a range of features and benefits, which make it ideal for meticulous tasks as well as being extremely versatile and good value for money.

The key features of this general handling glove include:

PROTECTION: Enables the wearer to safely handle rough and sharp objects.

COMFORT: A seamless knitted liner provides extra comfort, whilst the open back style keeps the hands cool and comfortable by allowing hands to breathe.

GRIP: The polyurethane palm coating provides excellent grip in both wet and dry conditions.

DEXTERITY: The Matrix P Grip's close fitting design makes it extremely tactile and perfect for tasks that require care and precision.

HYGIENE: The elasticated knitted wrist provides a secure fit to lock out dust and debris and keep hands clean.

Leak Guard

LeakGuard permanently and safely seals A/C leaks in both rubber and metal components. Unlike other A/C sealants, LeakGuard is an oil based sealant that does not have any of the dangerous side effects. It will not harden, crystallize, clog the A/C system or harm the recovery equipment.

Adaptor

Spotgun R134A Adaptor Assembly
Spotgun Adapter for R134a. Adapter for Spotgun systems attaches to cartridge and has R-134a coupler on flexible hose for ease of application.

Order Code: QLAC471535EU

Leak Guard

ELITE

Plug & Play – Re-Programmable tuning unit

For over 10 years we have been the exclusive UK distributor of one of the highest quality Digital Tuning Units available in the world.

Benefits to the owner:

- Increased MPG
- Increased Torque
- Increased BHP
- Removal of Flat Spots
- Re-programmable & transferrable product
- 4 year product Warranty

Benefits to the seller:

- New revenue stream
- Simple non-technical installation
- High quality European manufactured product
- 4 Year product warranty

The units are manufactured in Holland by EPC where the lead Technician is Wim Essing an Ex Formula 1 race engineer who devised this technology. His company undertake many tuning projects including: Tuning a petrol Audi A5 3.0 TFSI from 272bhp to 415bhp and a BMW X5 M Sport from 555bhp to 950bhp. More information on their projects can be found at www.essingperformancecenter.com

If you are looking for an additional source of revenue via a high quality – reliable – simple to install product, talk to your usual contact us today.

The Diesel Power Tuning range of units covers over 2000 applications mainly diesel cars and vans - the technology is also available for some petrol application and has become well respected for the tuning of agricultural & marine engines.

The range includes vehicles which have Vehicle Manufacturer anti tuning which prevents EOBD tuning. For more information on what we have to offer you call us today and tell us what vehicle you wish to have tuned.

Winter Care

We have a range of products of use to your customers during the winter. Many of our customers sell these and others use these as complimentary handouts when they service a vehicle.

Terms & Conditions

How do I order?

There are several ways to order:

Tel: 01670 735575

Fax: 01670 590739

Email: enquiries@randstadltd.co.uk

24/7 online ordering will start during 2022 please consult your sales representative for details of how to gain access to the system.

Is there a minimum order?

No, there is no minimum order size or value, but remember carriage is free on orders over £55*

How much is carriage?

For orders over £55 delivery is free*, and for those under £55, carriage is charged at cost - usually between £1 and £4.50, for most uk mainland postcodes.

*Excludes Scottish Highlands and Offshore

How long will I have to wait for goods

Delivery is next day on all orders placed before 4pm for most UK destinations (Highlands and Offshore are 2-3 days)

How do I pay?

Randstad operate Trade credit accounts (subject to suitable references) payment can be settled by cheque, BACS or using a credit²/debit card.

When do I pay?

Trade credit accounts become due at the end of the month following invoice date.

What happens if I am not satisfied with the goods?

No problem, we want you to be completely satisfied. Return the goods to us for credit in full, providing the goods are in original packaging and saleable condition.

² Charges will apply for business credit cards.
